

CONTENTS

A New Method of Construction of Second-Order Slope Rotatable Designs using Pairwise Balanced Designs	B. Re. Victorbabu and Ch. V. V. S. Surekha	1–9
Development of ARIMA Model for Tea Production of Assam, India : A Case Study	Jiten Hazarika	11–18
Generalized CPM Implementation in a Building Construction Project	C. P. S. Hungund and Rajeshri Muttin	19–29
A New Approach to Solve Fuzzy Multi-objective Unbalanced Assignment Problem	K. L. Kagade and V. H. Bajaj	31–40
On the Partial Maxima of Samples from Two Independent Populations	Sujatha S. Ingishetty and S. S. Nayak	41–52
A Study on the Probability Distribution of Daily Rainfall Amounts in Western Orissa	A. K. Mangaraj and L. N. Sahoo	53–60
Growth and Problems of Slums in Indian Cities	A. S. Kadi and B. I. Halingali	61–77
Studies of Roychoudhury Method in Unequal Probability Sampling	R. K. Gayatri and S. J. Amdekar	79–86
Time Minimization Assignment Problem with Variant Objectives-A Lexi Search Approach	A. Nagaraju, V. V. Hara Gopal and S. N. Narahari Pandit	87–98
A Modified Stopping Criterion in TTSP	P. V. Ubale and S. P. Kane	99–104
Effect of Different Spacings on Tomato Productivity under Field Condition	Anil Kumar	105–107
On some Formulas Involving Probabilities of a Class of Weighted Generalized Poisson Distribution	Subrata Chakraborty	109–114
A General Class of Improved Ratio Type Estimators through Auxiliary Information	Manish Sharma, Sharad Bhatnagar and Imran Khan	115–118
On Method of Measuring Family Planning Output : With Special Reference to Rajasthan	Jagdish Prasad and Nand Kishore Rawat	119–131
Effect of Root Pruning Depth and Coppicing Height of Gliricidia on Light Transmission Ratio, Soil Moisture Regime and Economics of Rabi Sorghum in Alley Cropping System	S. Y. Wali, S. B. Devaranavdgi, S. B. Patil, D. N. Kambrekar and M. B. Jambagi	133–140
Self-Help Groups : Effectiveness and Essential Elements to Establishing and Maintaining a Group	Jas Vir Singh and Reeta Rajauria	141–146
On a Class of Continuous Type Probability Distributions with Application	Bilal Ahmad Bhat, T. A. Raja, M. S. Pukhta and R. K. Agnihotri	147–156

Continued inside on page 342

Markov Chain Approach on the Behaviour of Rainfall	Vivek Kumar Garg and J. B. Singh	157–162
Separable Programming Approach to Double Sampling	M. S. Pukhta, S. Maqbool, S. H. Siddiqui and M. Y. Baba	163–166
Estimation in Two Parameter Rectangular Distribution	Yashbir Singh	167–170
A two Warehouse Inventory Model for Exponentially Increasing Demand	M. Madhavilata, K. Srinivasa Rao and V. Ravindranath	171–179
A New Class of Distribution Free Tests for the Two-Sample Scale Problem Based on Sub Sample Extremes of the Samples	I. D. Shetty and Mamata B. Umarani	181–186
Fuzzy Multi-objective Transportation Problem with Interval Cost	M. H. Lohgaonkar and V. H. Bajaj	187–196
Adoption of Improved Sericultural Practices by Sericulturists in Border Area of Kashmir	S. Farhat Iqbal Qadri, M. A. Malik, Awquib Sabhat and Firdose Ahmad Malik	197–201
Determination of Expected Time to Recruitment when the Breakdown Threshold has three Components	G. Arivazhagan, R. Elangovan and R. Sathiyamoorthi	203–213
Level of Beneficiaries of KVKs regarding Selected Agricultural Technologies	S. G. Aski, S. H. Gotyal and S. S. Dolli	215–219
Attitude of Rural Women towards the Bakery Training Programme on Income Generating Activities	Shakuntala Masur, K. C. Tarachand and S. Devendrappa	221–224
Steady State Analysis of an Operating System with Repair at Different Levels of Damages Subject to Inspection and Weather Conditions	D. Pawar, S. C. Malik and S. Bahl	225–234
An Improvised Control Chart based on Mean Deviation to Detect the Shifts in Process	M. Jagan Mohan Rao, N. Ch. Bhatra Charyulu and R. J. R. Swamy	235–241
On Analysis of Fertility Transitions in Different States of India	S. B. Bhardwaj, G. C. Sharma and Arun Kumar	243–250
Forecasting Paddy Production in Andhra Pradesh with ARIMA Model	M. Raghavender	251–258
Reliability Analysis of a System of Wheels in a Four Wheeler	R. K. Agnihotri, Gunjan Sharma and Sanjay Jain	259–268
A New Class of Distribution Free Tests for the K-sample Scale Problem for Testing Homogeneity against Ordered Alternatives	I. D. Shetty and Mamata B. Umarani	269–279
A Study on Gujarat In-migration Trends using Various Clustering Techniques	Mayuri Pandya and Krishnam Bhatt	281–291
Constraints and Suggestions of Grape Growers for Improvement in Grape Production and Marketing	S. H. Gotyal, J. G. Angadi, S. G. Aski, M. B. Patil and S. S. Dolli	293–298
Equipment Replacement Analysis using Fuzzy Linguistic Theory	P. R. Chavan and V. H. Bajaj	299–306
Cost Benefit Analysis of a Biscuit Making System	Alka Chaudhury, Neeraj and Kailash Kumar	307–318
Control Charts for Random Queue Length N for (M/M/1) : (∞ / FCFS) Queuing Model	M. V. Khaparde and S. D. Dhabe	319–334
Partially Balanced Part Ternary Design	R. G. Kedia, B. L. Misra and V. P. Narkhede	335–341

Information to the Contributors

International Journal of Agricultural and Statistical Sciences is a biannual peer reviewed journal devoted to publish original research / review articles in all fields of Agricultural and Statistical Sciences. The aim of the journal is to promote research and development in the fields of agricultural, applied agricultural and statistical sciences and other allied fields. The paper will be considered for publication in the journal if it is not submitted for publication elsewhere and includes results which are new nontrivial and significant.

Manuscript preparation : Manuscript should be typeset in double space on A4 size paper with the margins at the top, sides and bottom of the pages. The title page should include the article title, the name(s) and address(es) of the author(s) clearly indicating the name of author to whom the correspondence is to be made. A running title of maximum 50 characters should be indicated. An abstract should include the scope of the work and the principal findings of the paper. The text of the manuscript should be divided into sections starting with introduction and ending with conclusion. Figures (illustrations) should be numbered consecutively in order of appearance in the list.

References should be cited alphabetically and set out as follows :

Royall, R. M. (1970). On finite population sampling theory under certain linear regression models, *Biometrika*, **57**, 377-389.

Sharma, K. K. and R. S. Rana (1991). Robustness of sequential Gamma life testing procedure, *Microelectron Reliab.* **30**, 1145-1153.

Reprints : No gratis reprints are available and the authors have to bear the cost of minimum 25 reprints.

Manuscript Submission: Manuscript for publication is to be sent in duplicate to
**Chief Editor, 606/10, South Civil Lines (D.A.V. College Campus),
Muzaffarnagar-251 001, India.**

Subscription Information

	<u>Print</u>	<u>Online</u>	<u>Print + Online</u>
Annual Subscription for Libraries/Institutions (INR)	800.00	800.00	1,500.00
Annual Subscription for foreign subscribers (US \$)	100.00	80.00	150.00
Life Subscription for Libraries/Institutions	5,000.00	5,000.00	9,000.00
Life Subscription for individuals	3,000.00	3,000.00	5,000.00
Annual Subscription for individuals	300.00	300.00	600.00

Mailing expenses are inclusive.

Payments : Payments should be made in favour of **Managing Editor, International Journal of Agricultural and Statistical Sciences** in the form of Bank Draft of any nationalised Bank payable at Muzaffarnagar.
